

SKWOOSH™ MOTORCYCLE GEL PAD

SKWOOSH™

Goldwing motorcycle riders who want touring comfort and support, without bulk now enjoy the same Gel seat benefits as performance athletes and commercial pilots. By relieving pressure on the weight bearing "sitz" bones, patented TekPad® gel allows a motorcycle rider to travel miles without discomfort, loss of circulation and numbness. The SKWOOSH™ Motorcycle Gel Touring Pad weighs 13 ounces and it folds for easy storage. A NON-SKID bottom keeps the gel seat from moving during use so there's no need for straps, buckles or cords. Positive testimonials from people who do long and short rides on all types and sizes of bikes say "if you want to sit comfortably and enjoy your ride more, you need a SKWOOSH™ Gel seat".

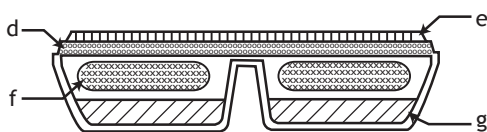

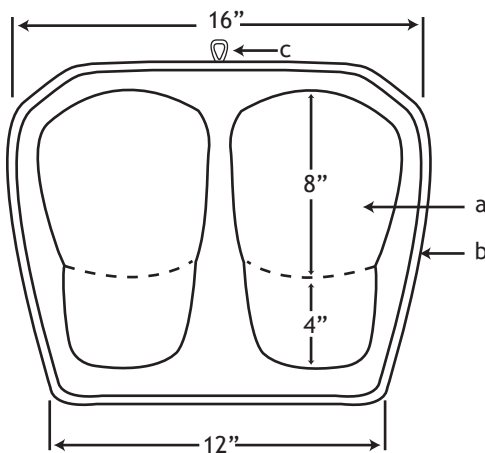

CUSHIONING - TekPad lightweight pressure relieving gel
