

COMFORT FOR FREQUENT TRAVELERS!

FIRST CLASS COMFORT

FIRST CLASS CONVENIENCE

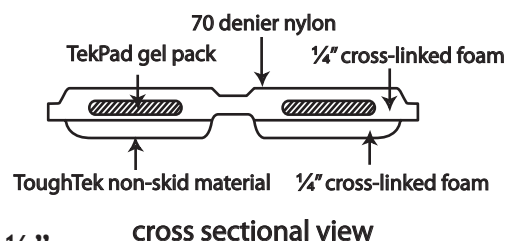

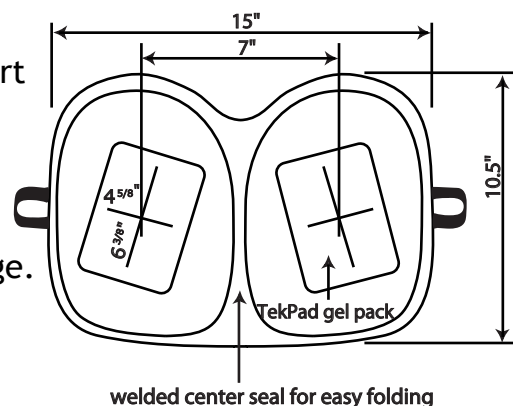

A TRAVEL GEL CUSHION FOR THE SERIOUS TRAVELER

The SKWOOSH™ Pro Traveler uses patented TekPad® gel to relieve pressure on the sitz bones. Relieving pressure helps reduce numbness in the legs and rear caused by long hours of traveling. The Pro Traveler features an upgraded internal structure to make it more comfortable and built-in handles to make it more convenient to carry or hang. The Pro Traveler weighs only 8 ounces and when folded, is smaller than a magazine so it fits easily in a briefcase or carry-on. The SKWOOSH™ Pro Traveler delivers more comfort in a convenient and compact package than any other cushion of it's size.

BENEFITS

- CUSHIONING** - Patented TekPad® lightweight pressure relieving gel
